LITTLE ROCK, Ark., August 4, 2022 (GLOBE NEWSWIRE) – Uniti Group Inc. ("Uniti" or the "Company") (Nasdaq: UNIT) today announced its results for the second quarter 2022.

"Demand for our mission critical fiber infrastructure continues to accelerate across virtually all customer segments as evidenced by our fifth consecutive quarter of elevated new sales bookings and our highest level of gross install activity since 2017. With the second largest independent fiber network in the country consisting of 133,000 route miles, Uniti is enabling broadband connectivity across the spectrum for our customers, from offering 1 Gbps service to small businesses to 1.2 terabit super waves connecting cities for carriers," commented Kenny Gunderman, President and Chief Executive Officer.

Mr. Gunderman continued, "With the tailwinds in our industry and the relatively untapped capacity in our network, we remain confident that we will be able to attain sustainable and profitable growth for many years. Uniti is well positioned to weather any potential sustained economic headwinds through our \$7 billion of revenue under contract with an average remaining term of 8.5 years, the strengthening of our balance sheet, lower capital intensity, and with 96% of our debt fixed-rate and no significant debt maturities before mid-2024."

QUARTERLY RESULTS

Consolidated revenues for the second quarter of 2022 were \$284.0 million. Net income and Adjusted EBITDA were \$53.8 million and \$227.2 million, respectively, for the same period. Net income attributable to common shares was \$53.4 million for the period. Adjusted Funds From Operations ("AFFO") attributable to common shareholders was \$114.9 million, or \$0.44 per diluted common share, an increase of 11.3% when compared to the second quarter of 2021.

1

Uniti Fiber contributed \$78.4 million of revenues and \$33.6 million of Adjusted EBITDA for the second quarter of 2022, achieving Adjusted EBITDA margins of approximately 43%, up from 41% Adjusted EBITDA margins for the second quarter of 2021. Uniti Fiber's net success-based capital expenditures during the quarter were \$30.1 million.

Uniti Leasing contributed revenues of \$205.6 million and Adjusted EBITDA of \$200.3 million for the second quarter, representing growth of 4.9% and 4.3%, respectively, when compared to the second quarter of 2021. During the quarter, Uniti Leasing deployed capital expenditures of \$53.1 million primarily related to the construction of approximately 1,700 new route miles of valuable fiber infrastructure.

INVESTMENT TRANSACTIONS

On June 21, 2022, Uniti completed the sale of its remaining investment interest in Harmoni Towers to Palistar Capital LP (formerly known as Melody Investment Advisors) ("Palistar") for total cash consideration of \$32.5 million, resulting in a gain on sale of \$7.9 million. Uniti previously sold 90% of its U.S. tower business to Palistar in June 2020.

LIQUIDITY

At quarter-end, the Company had approximately \$361.4 million of unrestricted cash and cash equivalents, and undrawn borrowing availability under its revolving credit agreement. NON-GAAP FINANCIAL MEASURES

We refer to EBITDA, Adjusted EBITDA, Funds From Operations ("FFO") (as defined by the National Association of Real Estate Investment Trusts ("NAREIT")) and Adjusted Funds From Operations ("AFFO") in our analysis of our results of operations, which are not required by, or presented in accordance with, accounting principles generally accepted in the United States ("GAAP"). While we believe that net income, as defined by GAAP, is the most appropriate earnings measure, we also believe that EBITDA, Adjusted EBITDA, FFO and AFFO are important non-GAAP supplemental measures of operating performance for a REIT.

We define "EBITDA" as net income, as defined by GAAP, before interest expense, provision for income taxes and depreciation and amortization. We define "Adjusted EBITDA" as EBITDA before stock-based compensation expense and the impact, which may be recurring in nature, of transaction and integration related costs, costs associated with Windstream's bankruptcy, costs associated with litigation claims made against us, and costs associated with the implementation of our enterprise resource planning system, (collectively, "Transaction Related and Other Costs"), costs related to the settlement with Windstream, goodwill impairment charges, executive severance costs, amortization of non-cash rights-of-use assets, the write off of unamortized deferred financing costs, costs incurred as a result of the early repayment of debt, including early tender and redemption premiums and costs associated with the termination of related hedging activities, gains or losses on dispositions, changes in the fair value of contingent consideration and financial instruments, and other similar or infrequent items (although we may not have had such charges in the periods presented). Adjusted EBITDA includes adjustments to reflect the Company's share of Adjusted EBITDA from unconsolidated entities. We believe EBITDA and Adjusted EBITDA are important supplemental measures to net income because they provide additional information to evaluate our operating performance on an unleveraged basis. In addition, Adjusted EBITDA is calculated similar to defined terms in our material debt agreements used to determine compliance with specific financial covenants. Since EBITDA and Adjusted EBITDA are not measures calculated in accordance with GAAP, they should not be considered as alternatives to net income determined in accordance with GAAP.

Because the historical cost accounting convention used for real estate assets requires the recognition of depreciation expense except on land, such accounting presentation implies that the value of real estate assets diminishes predictably over time. However, since real estate values have historically risen or fallen with market and other conditions, presentations of operating results for a REIT that

uses historical cost accounting for depreciation could be less informative. Thus, NAREIT created FFO as a supplemental measure of operating performance for REITs that excludes historical cost depreciation and amortization, among other items, from net income, as defined by GAAP. FFO is defined by NAREIT as net income attributable to common shareholders computed in accordance with GAAP, excluding gains or losses from real estate dispositions, plus real estate depreciation and amortization and amortization and impairment charges, and includes adjustments to reflect the Company's share of FFO from unconsolidated entities. We compute FFO in accordance with NAREIT's definition.

The Company defines AFFO, as FFO excluding (i) Transaction Related and Other Costs; (ii) costs related to the litigation settlement with Windstream, accretion on our settlement obligation, and gains on the prepayment of our settlement obligation as these items are not reflective of ongoing operating performance; (iii) goodwill impairment charges; (iv) certain non-cash revenues and expenses such as stock-based compensation expense, amortization of debt and equity discounts, amortization of deferred financing costs, depreciation and amortization of non-real estate assets, amortization of non-cash rights-of-use assets, straight line revenues, non-cash income taxes, and the amortization of other non-cash revenues to the extent that cash has not been received, such as revenue associated with the amortization of tenant capital improvements; and (v) the impact, which may be recurring in nature, of the write-off of unamortized deferred financing fees, additional costs incurred as a result of the early repayment of debt, including early tender and redemption premiums and costs associated with the termination of related hedging activities, executive severance costs, taxes associated with tax basis cancellation of debt, gains or losses on dispositions, changes in the fair value of contingent consideration and financial instruments and similar or infrequent items less maintenance capital expenditures. AFFO includes adjustments to reflect the Company's share of AFFO from unconsolidated entities. We believe that the use of FFO and AFFO, and their respective per share amounts, combined with the required GAAP presentations, improves the understanding of operating results of REITs among investors and analysts, and makes comparisons of operating results among such companies more meaningful. We consider FFO and AFFO to be useful measures for reviewing comparative operating performance. In particular, we believe AFFO, by excluding certain revenue and expense items, can help investors compare our operating performance between periods and to other REITs on a consistent basis without having to account for differences caused by unanticipated items and events, such as transaction and integration related costs. The Company uses FFO and AFFO, and their respective per share amounts, only as performance measures, and FFO and AFFO do not purport to be indicative of cash available to fund our future cash requirements. While FFO and AFFO are relevant and widely used measures of operating performance of REITs, they do not represent cash flows from operations or net income as defined by GAAP and should not be considered an alternative to those measures in evaluating our liquidity or operating performance.

Further, our computations of EBITDA, Adjusted EBITDA, FFO and AFFO may not be comparable to that reported by other REITs or companies that do not define FFO in accordance with the current NAREIT definition or that interpret the current NAREIT definition or define EBITDA, Adjusted EBITDA and AFFO differently than we do.
